Change of Program Form for the Literacy Intervention Program

Effective Date: October 2005-June 2006

_____ has been chosen for the Literacy Intervention Program and will be pulled from the regular classroom for 27 minutes every day.

During "Literacy" time, your child will receive small group instruction with other students in the same grade. The focus of this instruction will be to teach students how to understand and write expository (content area) text and build vocabulary. Students will receive direct instruction on text organization and text structure and eventually be using selected textbooks from their science and social studies program. Study skills and strategies will be taught and when possible, these strategies will be used in the regular program to promote transfer.

If you have any questions or concerns regarding your child's program, please contact me at the school.

Sincerely,

Holly Desserre
AISI Lead Teacher

Please sign and return this form as soon as possible so it can be placed in your child's file. (A copy will also be sent home for your records).
