

GREEN TEAM

What is the Green Team?

The **Green Team** is a group of grade 4, 5 and 6 students that try to go as green as they can. Their recent projects have been the canal cleanup, Kinsmen lake cleanup and just recently a group of students have built a solar oven. They cooked smores and roast beef with mashed potatoes.

Who runs it?

The teacher in charge of the **Green Team** is Mrs. Jones. She is the person who makes it all happen. She organizes all the lake clean ups and projects to make our school green.

How can you help?

You can help by picking up trash, car pooling, riding your bike to work and recycling. Here are some pictures of what our world will eventually look like if we don't do these things.
